Event Description:

The quiz was conducted on 09th October 2025 in the Seminar Hall. The competition included multiple-choice questions related to renewable energy sources, environmental conservation, and sustainable practices.

Students participated with great enthusiasm, displaying awareness and curiosity about energy-related concepts.

A total of 69 students participated in both the slogan and quiz events, with some students taking part in both competitions. The quiz was conducted using Google Forms to ensure fairness and instant scoring.

Outcome:

Students showed keen interest in understanding the importance of renewable energy and energy conservation. The activity fostered teamwork, awareness, and critical thinking. The quiz encouraged students to stay informed about environmental sustainability and government energy initiatives.

Conclusion:

The quiz competition was informative and interactive. It helped in creating awareness among students about responsible energy use and the potential of renewable resources for a sustainable future. The event contributed significantly to the institute's ongoing efforts toward environmental education.
